

## WHAT SHOULD MY CEAL LOOK LIKE

- C → restate the Q.
- what is homeostasis \* maintaining internal balance
- EA ( → organ that helps in excretion (kidney)
- what happens in this organ AND how does this help balance in the body?
- EA ( → discuss **another** organ (lungs? skin? liver? brain?)
- discuss what does **THIS ORGAN** do AND how does this help balance in the body?
- L → Bring it back to working together for balance and wrap the paragraph!

**READ OUT LOUD TO CHECK FOR FLOW AND CLARITY**
