

**Phenotype** (FEE no type)

physical appearance or visible trait  
ex. blonde hair or wrinkled seed coat

**Genotype** (GEE no type)

genetic makeup or allele combination  
letters (dominant is capital letter; recessive is lowercase)

**Homozygous** (hoh moh ZY gus)

when an organism has two of same alleles for a trait; *purebred*

**Heterozygous** (het ur oh ZY gus)

when an organism has two different alleles for a trait; *hybrid*

**Codominant** (koh DOM inunt)

alleles are neither dominant or recessive; both alleles are expressed  
phenotype may show a blend (ie. white x red = pink)  
also known as **INCOMPLETE DOMINANCE**
