

## HOMEOSTASIS CEAEEAL

Restate the Q.

Explain what is homeostasis \* maintaining internal balance

List an organ that helps in excretion (kidney)

Explain what happens in this organ AND how this helps balance the body

Discuss **another** organ (lungs? skin? liver? brain?)

Explain what **THIS ORGAN** does AND how it helps keep balance in the body

Bring it back to working together for balance and wrap the paragraph!

**READ OUT LOUD TO CHECK FOR FLOW AND CLARITY**
