COTTONWOOD

YAMPAH

WILLOW

ELDERBERRY

THIMBLEBERRY

DEVILS CLUB

BEARGRASS

FIREWEED

LUPINE

INDIAN PAINTBRUSH

NATIVE PLANT USE

1. Common name(s) of the plant you are researching:
2. Scientific name for the plant (*Genus and species*):
3. What does this plant look like (you will create a sketch or attach a printed picture in addition to brief description).
4. What did the Native Americans use this plant for?
5. What are other uses for this plant?
6. Is your plant edible?
7. Other interesting facts:
8. Cite your sources (at least 2).

For a "4" on this activity you may write an origins story (creation story) for how your plant came to be. Use the similar traditions and style we used for creation stories of Old Man and Coyote and the Bitterroot story shared today.
