

Science Current Event LAPS (short version)

*Answer the following LAPS for your current event. Do not worry about citing the source. All information will be answered on loose leaf paper using complete thoughts and turned in the red basket **by the end of class**.*

Look:

What is the central idea, thesis, or theme of the article? (The general topic of the article)

Analyze:

What are vocabulary terms important to the understanding of this article? List and define important terms. Ask for help with definitions if needed!

Prove It:

Find and record evidence used to support the main idea (important facts, statistics, and quotes). Explain how each piece of evidence supports the main idea. Be sure to note important information from EACH paragraph. A bulleted list with evidence and analysis works well for organization purposes.

So What:

How does this topic make an impact in your life, the life of others, or the world? (Explain the importance of this scientific information)

Final Question:

Why did I choose THIS article as a FANTASTIC fit for science class right now?
