

Conference Questions Life Science

1. We have completed one full unit so far this year: **The Work of Scientists**. Share what you learned about **doing the work of science** with your confereec. This unit discussed content from Standard 1: *Students demonstrate the ability to design, conduct, and communicate results and conclusions of scientific investigations*. Discuss a few highlights from this unit. What were some of your most successful assignments? Share 3 now!
2. The Needs of Seeds lab write up was our final assessment for Standard 1. This is the time to show off your work to your confereec. Log into your Google Classroom and show the final draft! While you are in Classroom take time to show the work you have done for Language Arts AND Social Studies as well.
3. Look on page 6 for the midterm notebook grade sheet and discuss your organization so far this year in science.
4. We are just beginning our next unit, **Cells**. Discuss and then share below what you hope we will learn about **the history, discovery, and organization of cells**. This unit is discussing content from Standard 3.1: *Compare the structure and function of prokaryotic and eukaryotic cells including the levels of organization in organisms*.

5. Choose two items that were not your best work. Discuss what you plan to do in the future **to** improve.
6. When we set goals, we have a better idea of what we have accomplished as well as what we still want to do. Please set a work ethic goal for Timeliness, Citizenship/Teamwork, or Quality of Work (you may want to use the work ethic rubric on Reference page 7 if needed for ideas for your goal). Make sure to include **HOW** you plan to accomplish this goal. We will check how well you have met your goal during the next conference sheet.

MY WORK ETHIC GOAL and PLAN OF ACTION IS:

Take this opportunity to log on to Powerschool (<http://www.sd5.k12.mt.us/Page/1900>) to check for additional information about your students' work in science as well as all other subjects at KMS. Remember our target is a "3" for proficient work.

You may also check out my website at www.kmssciencehunt.weebly.com to learn more of what we have been doing in class as well as find resource information. I update the RAMBLINGS TAB daily.

Use the space **on the back** of this page for any comments or discussion of your student conference. Sign below when your conference is done. Take the time to learn about your student's work since we will be meeting for parent/teacher conferences on November 11th. © Due date for this page is **MONDAY, NOVEMBER 9TH** and will count as a work ethic score.
